Specification Summary

Brand	dormakaba
Product type	900 Series

Product Description

The weather-resistant Simplex 900 Series from dormakaba (formerly known as Kaba) is a fully mechanical digital lock, eliminating the hassle and cost of frequent battery replacements. Designed for light commercial and residential applications, the 919 model is engineered to suit doors with a thickness of 44mm to 54mm and comes supplied with a medium-duty rim deadlatch.

This non-handed unit features a reversible latch and a protective clutch mechanism to prevent damage from forced entry attempts. It offers convenient access control with a single, easily programmable code of 1 to 5 digits, providing over 1,000 possible combinations. The code can be changed quickly while the unit remains fitted to the door.

This lock is available in multiple finishes, including Satin Brass and Satin Chrome, with corresponding manufacturer references and barcodes. Please choose your preferred finish and specifications from the options below.

Technical Specifications

- **Brand:** dormakaba
- **Series:** 900 Series (919)
- **Door Thickness:** 44mm to 54mm
- **Backset:** 65mm
- **Case Depth Required:** 94mm
- **Width:** 65mm
- **Weight:** 800g
- **Latch Type:** Rim Deadlatch

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
