Specification Summary

Brand	dormakaba
Product type	3000 Series

Product Description

The dormakaba Backset Adaptor (also known as a drive assembly) is designed specifically to suit the dormakaba Simplex 3000 series of mechanical digital locks. This complete mounting backplate assembly kit is essential for installing the Simplex 3000 series narrow stile lock onto your door, allowing it to interface correctly with compatible latch mechanisms.

Because these adaptors are factory-handed and configured for specific dimensions, they are available in multiple variations. Depending on your door setup, you can choose between 25mm and 28mm backsets, as well as left-hand or right-hand configurations. They are also designed to suit either Adams Rite 4710 or Adams Rite 4710/4720 latches (please note that latches are not supplied).

Please select your required backset, handing, latch compatibility, and manufacturer reference from the options below to ensure you receive the correct adaptor for your installation.

Technical Specifications

- **Brand:** dormakaba
- **Compatibility:** dormakaba Simplex 3000 Series
- **Backset:** 25mm or 28mm (please choose from the options below)
- **Handing:** Left Hand or Right Hand (please choose from the options below)

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
