Specification Summary

Brand	dormakaba
Product type	Floor

Product Description

The dormakaba (formerly Dorma) BTS75V is a highly adaptable, floor-concealed door closer designed for both single and double-action doors. This hold-open floor spring is suitable for doors with a maximum width of 1100mm and a leaf weight of up to 120kg.

With its adjustable spring strength (sizes EN 1 - 4), the closing force can be individually regulated to suit your specific door requirements. It features a built-in backcheck to prevent damage from doors being opened with excessive force, as well as an adjustable latch action for a smooth, controlled close.

Designed for low-maintenance, long-term performance, this unit is fire-tested for up to 1 hour on timber doors and up to 4 hours on metal doors. Please note that the cover plate is not included.

Technical Specifications

- **Brand:** dormakaba
- **Model:** BTS75V Hold Open
- **Power Size:** EN 1 to 4 (Adjustable)
- **Max Door Width:** 1100mm
- **Max Door Weight:** 120kg

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
