Specification Summary

Brand	dormakaba
Product type	Floor

Product Description

The dormakaba BTS80 Double Action Floor Door Closer Kit is a premium accessory pack designed to suit the dormakaba (formerly Dorma) BTS80 floor spring closer. This kit provides the essential hardware required to enable double-action door operation, allowing the door to swing smoothly in both directions.

Ideal for high-traffic commercial and public environments, the kit includes double-action arms and a durable cover plate to ensure a clean, concealed finish. It is fully reversible (non-handed) and designed to support heavy-duty timber doors up to 300kg in weight and 1100mm in width. With a 1-hour fire rating on timber doors, this kit offers reliable performance and peace of mind for fire safety compliance.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** BTS80
- **Part Number:** L13537
- **Fire Tested:** 1 Hour Timber
- **Handing:** Reversible

- **Maximum Door Weight:** 300kg
- **Maximum Door Width:** 1100mm
- **Strength Size:** 4
- **Backcheck:** Yes
- **Adjustable Latch Action:** No
- **Length:** 34.1cm
- **Width:** 78mm

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
