Specification Summary

Brand	dormakaba
Product type	Kaba

Product Description

The dormakaba E-Plex 2000 is a robust, battery-operated electronic digital lock designed to provide secure and convenient access control for commercial and residential doors. Formerly known as Kaba, dormakaba has engineered this weather-resistant lock to eliminate the need for complex wiring, making installation straightforward on both timber and metal doors.

Programming is easily managed directly through the vandal-resistant 12-button keypad without removing the lock from the door, or via optional Microsoft Excel-based software. The system supports up to 100 user codes (ranging from 4 to 8 digits) and features a mechanical key override for emergency access. Powered by three AA batteries, the E-Plex 2000 delivers an impressive lifespan of up to 100,000 operations. It is fully reversible, making it suitable for left- or right-handed doors, and features a passage mode for unrestricted entry when required.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** EPLEX2000
- **Finish:** Satin Chrome
- **Backset:** 70mm
- **Case Depth Required:** 127mm
- **Door Thickness:** 35mm to 64mm
- **Power Source:** 3 x AA batteries
- **Battery Life:** Up to 100,000 operations
- **Code Length:** 4 to 8 digits
- **User Capacity:** Up to 100 user codes
- **Handing:** Reversible (non-handed)
- **Key Override:** Yes (supplied with 2 keys)
- **Weather Resistant:** Yes
- **Weight:** 3.928kg

Key Features

- **Wire-Free Installation:** No wiring through the door is required, reducing installation time and preventing pinched wire damage.
- **Vandal-Resistant Keypad:** Heavy-duty 12-button keypad designed to withstand harsh environments and high-traffic use.
- **Simple Programming:** Easily programmed directly via the keypad without removing the unit from the door.
- **Passage Mode:** Allows free access during busy periods without requiring a code.
- **Free Egress:** Lever handle on the inside ensures quick and easy exit at all times.
- **3-Year Guarantee:** Backed by a manufacturer's guarantee for long-term peace of mind.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
