Specification Summary

Brand	dormakaba
Product type	Accessory

Product Description

The Dormakaba G-N Angle Bracket is designed for push-side flush installations, allowing you to securely fix the closer slide channel and arm to door frames with a deep reveal. This high-quality accessory is ideal for use with Dormakaba TS92G and TS93G cam action door closers, ensuring a neat and reliable installation even in challenging architectural setups.

This angle bracket is available in multiple finishes, including Black and Dark Brown, to seamlessly match your door hardware. Please choose your preferred finish, barcode, and manufacturer reference from the options below.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
