Brand	dormakaba
Product type	Accessory

Product Description

The Dormakaba G-N Slide Block with Screw (9900064000300) is a genuine replacement part designed for the G-N slide arm channels of Dormakaba TS92 and TS93 door closers. Over time, slide blocks can wear down, leading to stiff or uneven door operation. This high-quality replacement slider restores the smooth, reliable opening and closing performance of your door closer without the expense of replacing the entire slide rail assembly.

Supplied complete with the necessary connecting screw, this white slide block is quick and easy to install. It is a vital spare part for maintaining commercial and residential door closers, ensuring they continue to operate safely and effectively.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** 9900064000300
- **Barcode:** 4021226324240
- **Length:** 35mm
- **Width:** 25mm
- **Depth:** 13mm
- **Weight:** 20g
- **Finish:** White
- **Pack Quantity:** 1
- **Compatibility:** Suitable for Dormakaba TS92 and TS93 door closers (G-N slide rails)

Key Features

- **Genuine Spare Part:** Authentic Dormakaba replacement component ensures a perfect fit and reliable performance.
- **Complete Kit:** Includes both the slide block and the matching connecting screw.
- **Cost-Effective Maintenance:** Avoid the cost of a full closer replacement by swapping out only the worn slider.
- **Smooth Operation:** Restores the effortless gliding motion of the door closer arm within the channel.
- **Easy to Install:** Simple replacement process minimizes door downtime.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
