Specification Summary

Brand	dormakaba
Product type	Outside Access Device

Product Description

The dormakaba PH 8020 Knob is a high-quality external fitting designed specifically to suit the dormakaba PHT 07 External Trim. This knob provides a secure and reliable outside access solution, making it an ideal choice for commercial and public buildings when paired with the PHA 2000 range of exit hardware.

Engineered for durability and ease of use, this knob is suitable for standard doors with a leaf thickness of up to 60mm. It features a clean silver finish that blends seamlessly with modern door hardware. Additionally, the PH 8020 is CE marked, ensuring compliance with rigorous safety and quality standards.

Technical Specifications

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
