Specification Summary

Brand	dormakaba
Product type	Panic Latch

Product Description

The dormakaba (formerly Dorma) PHA 2221 Standard Panic Latch is designed for use on the active leaf of over-rebated double doors. Part of the reliable PHA 2000 range, this high-quality panic hardware is ideal for emergency exits and escape routes. It is fully tested to BS EN 1125 and carries the CE mark.

This single-point locking unit is suitable for fire and smoke check doors. It features an integrated dogging device, which can hold the latch in a retracted position to allow free access when required. The non-handed, fully reversible design ensures straightforward installation on both left and right-hung doors.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** PHA2221
- **Standards:** BS EN 1125, CE Marked
- **Body Height:** 145mm
- **Depth:** 95mm
- **Width:** 1.285m (985mm to 1285mm)
- **Handle Projection:** 42mm
- **Screw Centres:** 113mm
- **Max Door Height:** 2270mm

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
