Specification Summary

Brand	dormakaba
Product type	Outside Access Device

Product Description

The dormakaba PHT 01 Lever Operated Outside Access Device (formerly known as Dorma) is a high-quality external trim lever handle designed to work seamlessly with the PHA 2000 and Exit Pad series of panic exit hardware. This robust unit provides secure, controlled access from the outside of a building while maintaining emergency egress functionality from the inside.

Engineered for versatility, the PHT 01 features a non-handed, fully reversible design, making it suitable for both left and right-handed doors. It is prepared for a Euro-profile single cylinder (sold separately), allowing you to integrate it

into your existing master key system or standard keying setup.

This outside access device is suitable for standard doors with a leaf thickness of up to 60mm. It comes complete with a silver-finished lever handle, spindle, and two fixing bolts for a straightforward installation.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
