Specification Summary

Brand	dormakaba
Product type	Outside Access Device

Product Description

The dormakaba (formerly Dorma) PHT 07 External Trim is a high-quality outside access device designed to suit the PHA 2000 range of panic and emergency exit hardware. This modular unit provides a secure and reliable means of external entry, making it ideal for commercial, public, and administrative buildings where controlled access from the outside is required.

Featuring a Euro-profile design, this modular external trim is suitable for installation on standard doors with a leaf thickness of up to 60mm. It is designed to work seamlessly with Dorma lever handles or knobs, offering flexible configuration options depending on your building's requirements. The unit is supplied complete with a lever handle spindle and two cylinder fixing bolts for a straightforward installation.

Technical Specifications

- **Brand:** dormakaba
- **Manufacturer Reference:** PHT07 (L25219)
- **Compatibility:** dormakaba PHA 2000 exit hardware range
- **Locking Mechanism:** Euro Cylinder (not included)
- **Maximum Door Thickness:** 60mm

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
