Specification Summary

Brand	dormakaba
Product type	Transom

Product Description

The dormakaba RTS 85 Size 3 Transom Door Closer is a concealed, high-performance door control solution designed for installations where maintaining a clean, uninterrupted aesthetic is essential. By being installed entirely within the transom (the top frame of the door), this closer provides reliable, fully controlled closing without the need for visible overhead arms.

This versatile closer is suitable for both single and double-action doors, making it an ideal choice for a wide range of commercial and architectural applications. It features a single closer body design that accommodates various fixing types, and is supported by a comprehensive range of accessories to suit almost any door and frame configuration.

This EN Size 3 model is available in both Hold Open and Non-Hold Open configurations, with weights ranging between 4.58kg and 4.6kg. Please select your required option from the drop-down menu below.

Technical Specifications

- **Brand:** dormakaba
- **Model:** RTS85
- **Strength Size:** EN 3
- **Maximum Door Width:** 950mm
- **Maximum Door Weight:** 90kg
- **Dimensions:** 328mm (Length) x 94mm (Width) x 42mm (Depth)
- **Standards:** BS EN 1154
- **Handing:** Reversible (non-handed)
- **Finish:** Silver Enamelled
- **Fire Tested:** No
- **Hold Open Option:** Yes or No (please choose from the options below)
- **Manufacturer's Part Number:** 85311101 or 85312101 (please choose from the options below)
- **Weight:** 4.58kg or 4.6kg (please choose from the options below)
- **Barcode:** 4021226018750 or 4021226018811 (please choose from the options below)

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
