Specification Summary

Brand	dormakaba
Product type	1000 Series

Product Description

The dormakaba Simplex 1000 Series 1011 is a heavy-duty, weather-resistant mechanical digital lock designed to provide reliable, high-security access control without the need for batteries, wiring, or keys. Formerly known as Kaba, this robust knob-operated lock is ideal for both commercial and residential doors, offering a fully mechanical solution that eliminates the ongoing maintenance costs of battery replacements.

The lock supports a single, easily programmable access code (consisting of 1 to 5 digits) and features vandal-resistant solid metal pushbuttons for exceptional durability. It is supplied factory-handed for left-hand doors but can be easily reversed on-site to suit right-handed doors. It features a free exit from the inside and requires code entry for access from the outside.

This digital lock is available in multiple finishes, including Polished Brass and Satin Chrome, with corresponding weights ranging from 3.394kg to 3.6kg, barcodes, and manufacturer references 1011-03 or 1011-26D. Please choose your preferred finish, weight, barcode, and manufacturer reference from the options below.

Technical Specifications

- **Brand:** dormakaba
- **Series:** Simplex 1000 Series (Model 1011)
- **Backset:** 70mm
- **Latch:** 70mm Standard
- **Case Depth Required:** 110mm
- **Door Thickness:** 35mm to 57mm
- **External Dimensions:** 187mm (H) x 79mm (W) x 97mm (D)
- **Internal Dimensions:** 229mm (H) x 83mm (W)
- **Code Length:** 1 to 5 digits
- **Number of Codes:** 1
- **Combinations:** 1,000+
- **Handing:** Reversible (Factory handed left, field reversible)
- **Key Override:** No
- **Passage Set:** No
- **Holdback:** No
- **Weather Resistant:** Yes
- **Finish:** Polished Brass or Satin Chrome (please choose from the options below)
- **Weight:** 3.394kg to 3.6kg (please choose from the options below)
- **Manufacturer Reference:** 1011-03 or 1011-26D (please choose from the options below)
- **Barcode:** 3644880038 or 887838713629 (please choose from the options below)

Key Features

- Fully mechanical digital lock with no batteries or wiring required
- Heavy-duty, weather-resistant cylindrical lock housing
- Vandal-resistant solid metal pushbuttons for enhanced durability
- Easy on-door code programming via the 5-button keypad
- Knob-operated entry with free exit from the inside
- Field-reversible handing to suit both left and right-handed doors
- Supports a single access code with over 1,000 possible combinations

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
