Specification Summary

Brand	dormakaba
Product type	1000 Series

Product Description

The dormakaba Simplex 1000 Series 1021B is a heavy-duty, fully mechanical digital lock designed to provide reliable, keyless access control without the hassle of batteries or wiring. Featuring a robust, weather-resistant housing and solid metal pushbuttons, this vandal-resistant knob-operated lock is ideal for high-traffic commercial and residential environments.

The lock supports a single, easily programmable access code of 1 to 5 digits, which can be changed via the keypad without removing the unit from the door. It is factory-handed left but easily field-reversible on-site to suit both left and right-handed doors. This model also features a key override for code-free entry.

This lock is available in multiple finishes, including Polished Brass and Satin Chrome, and can be purchased either with the cylinder supplied (including 3 keys) or without a cylinder (including 2 keys). Please choose your preferred finish, cylinder option, and key requirements from the options below.

Technical Specifications

- **Brand:** dormakaba
- **Series:** Simplex 1000 (1021B)
- **Backset:** 70mm
- **Case Depth Required:** 110mm
- **Door Thickness:** 35mm to 57mm
- **Code Length:** 1 to 5 digits (1,000+ possible combinations)
- **Handing:** Reversible (factory-handed left, field-reversible)
- **Latch:** 70mm standard latch
- **Weather Resistance:** Yes
- **Width:** 79mm
- **Weight:** 3.6kg

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
