Specification Summary

Brand	dormakaba
Product type	L1000 Series

Product Description

The weather-resistant Simplex L1000 series from dormakaba (formerly known as Kaba) is a fully mechanical digital lock solution, eliminating the hassle of frequent battery replacement. This heavy-duty, commercial-grade access control solution features vandal-resistant, solid metal pushbuttons for outstanding durability and is ideal for high-traffic environments.

The lock is easily programmed with a single access code (1 to 5 digits) via the 5-button keypad, without needing to remove the unit from the door. It features a large, user-friendly lever handle on both the inside and outside, with free egress from the inside at all times.

This digital lock is available in multiple finishes (including Polished Brass and Satin Chrome) and is factory-handed for either Left Hand or Right Hand doors. Please select your preferred finish, handing, and manufacturer reference from the options below.

Technical Specifications

- **Brand:** dormakaba
- **Backset:** 70mm
- **Case Depth Required:** 110mm
- **Door Thickness:** 35mm to 57mm
- **Code Length:** 1 to 5 digits (1,000+ possible combinations)
- **Keypad:** 5-button mechanical keypad
- **Latch:** Heavy-duty deadlocking latch
- **Operation Outside:** Lever handle on code entry
- **Operation Inside:** Lever handle with free exit
- **Weather Resistant:** Yes
- **Key Override:** No
- **Holdback:** No
- **Passage Set:** No
- **Width:** 79mm
- **Guarantee:** 3 years
- **Finishes:** Available in Polished Brass or Satin Chrome (please select below)
- **Handing:** Available in Left Hand or Right Hand (please select below)
- **Weight:** 4.33kg to 4.652kg (depending on specification; please select below)

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
