Specification Summary

Brand	dormakaba
Product type	L1000 Series

Product Description

The dormakaba Simplex L1000 Series L1041B is a heavy-duty, fully mechanical digital lock that provides reliable security without the hassle of batteries or wiring. Designed for high-traffic commercial environments, this lever-operated lock features a weather-resistant construction and vandal-resistant solid metal pushbuttons. It includes a convenient passage set function, allowing free access via a thumb-turn or key when security is temporarily not

required, such as during deliveries.

This digital lock is available in multiple configurations to suit your door setup. Please choose from the options below to select your preferred finish (Satin Chrome or Polished Brass), handing (Left Hand or Right Hand), and key override configuration (either supplied complete with a cylinder and 2 keys, or without a cylinder).

Technical Specifications

- **Backset:** 70mm
- **Case Depth Required:** 110mm
- **Door Thickness:** 35mm to 57mm
- **Code Length:** 1 to 5 digits (1,000+ combinations)
- **Handing:** Left Hand or Right Hand (choose from options below)
- **Finish:** Satin Chrome or Polished Brass (choose from options below)
- **Latch:** Heavy-duty deadlocking latch
- **Key Override:** Yes (with or without cylinder; choose from options below)
- **Inside Operation:** Lever handle free exit
- **Outside Operation:** Lever handle on entry of code or by key
- **Guarantee:** 3 years

Key Features

- **Mechanical Operation:** Fully mechanical digital lock eliminating the need for batteries or electrical wiring.
- **Weather Resistant:** Robust construction suitable for both internal and external doors.
- **Passage Set Function:** Thumb-turn or key-activated free passage mode for convenient, unrestricted entry during busy periods.
- **On-Door Programming:** Quick and easy code changes by authorised personnel without removing the lock from the door.
- **Vandal Resistant:** Solid metal pushbuttons and a protective clutch mechanism to safeguard against forced entry.
- **Key Override:** Provides emergency access and convenient bypass control for building managers.

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
