Specification Summary

Brand	dormakaba
Product type	Overhead

Product Description

The **dormakaba TS92 Size 1-4 Contur Cam Action Door Closer (Body Only)** is designed specifically for interior applications, combining high-performance cam action technology with the award-winning Contur design for enhanced aesthetics. This overhead door closer provides exceptionally smooth operation with rapidly decreasing opening resistance, making it ideal for a wide range of commercial and residential interior projects.

Please note that this product is supplied as the **body only** with a Contur cover and end caps. It requires a separate slide channel and arm to complete the installation.

Depending on your installation requirements, this door closer is available in multiple finishes, handed options (Pull or Push side), and weights. Please choose your preferred options from the selection below.

To meet the requirements of Approved Document M and BS 8300 (for ease of access), a minimum fire door width of 733mm is required. The TS92 is fully CE marked to BS EN 1154 and Certifire approved (CF119), making it suitable for use on fire and smoke compartmentation doors.

Technical Specifications

- **Brand:** dormakaba
- **Power Size:** EN 1 to 4 (adjustable closing force)
- **Maximum Door Width:** 1100mm
- **Minimum Fire Door Width (for BS 8300 / Doc M):** 733mm

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
