Specification Summary

Brand	dormakaba
Product type	Overhead

Product Description

The dormakaba TS92 Slide Channel Overhead Door Closer is a high-quality, reliable cam-action door closer designed specifically for interior doors. Featuring a sleek Contur design, it utilizes a linear drive mechanism with a heart-shaped cam to ensure exceptionally low opening forces. This makes it highly accessible and easy to operate for all users, including children and those with limited strength, while still providing a secure and controlled close.

This door closer is CERTIFIRE approved (CF119) for use on fire doors and has been successfully tested to BS EN 1154 and ISO 9001 standards. It features fully adjustable closing speed and latch action, allowing for precise control over the door's movement.

The dormakaba TS92 is available in multiple handed configurations (Pull or Push) and manufacturer references (TS92B - 40922410301 or TS92G - 40922420301). Please select your required options from the selection below.

Technical Specifications

- **Brand:** dormakaba
- **Strength Size:** EN 1 to 4
- **Handing:** Pull or Push (please choose from the options below)
- **Manufacturer Reference:** TS92B - 40922410301 or TS92G - 40922420301 (please choose from the options below)
- **Barcode:** Multiple options available (please choose from the options below)
- **Finish:** Silver Enamelled
- **Length:** 28.1cm
- **Depth:** 65mm
- **Weight:** 2.1kg

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
