Specification Summary

Brand	dormakaba
Product type	Overhead

Product Description

The **Dormakaba TS93 Size 2-5 Contur Cam Action Door Closer (Body Only)** is a high-quality, high-performance overhead door closer designed for commercial and public buildings. Featuring Dormakaba's unique heart-shaped cam and roller design, it significantly reduces the opening resistance, ensuring exceptionally smooth and easy door operation. This makes it an ideal solution for satisfying the accessibility requirements of BS8300 and Approved Document M.

This unit is supplied as a body-only package with a stylish Contur cover and matching end caps. It requires a separate slide channel and arm to complete the setup. It features adjustable power size EN 2-5, making it suitable for internal doors up to 1250mm wide. It also includes adjustable backcheck to prevent damage from forcefully opened doors, and a delayed closing action to allow safe passage for slow-moving users.

This door closer is available in multiple finishes (including Black and Dark Brown) and handed configurations (Pull side or Push side) with varying weights. Please select your preferred options from the choices below.

Technical Specifications

- **Brand:** dormakaba
- **Power Size:** EN 2 to 5 (adjustable)
- **Maximum Door Width:** 1250mm
- **Minimum Fire Door Width:** 767mm (to meet BS8300 and Approved Document M)

Brand Profile

dormakaba

dormakaba is a Swiss-headquartered global access-solutions company that builds the stuff that makes buildings actually *work*: **door hardware**, **door closers**, **automatic entrances**, **electronic access control**, and **keying/locking systems** across commercial, residential, and institutional sites. The group is based in **Rümlang (Zurich), Switzerland** and sells into **50+ countries** with a large installed base in doors, hotels, airports, offices, and public buildings.

The modern company was created through the **merger of Germany's dorma and Switzerland's Kaba**, finalized in **September 2015** (initially branded "dorma+kaba," later standardized as **dormakaba**). That merger fused two long-running lineages: **DORMA (founded 1908 in Ennepetal, Germany)** with deep door-technology roots, and **Kaba** with a long history in locking/identification (origins going back to the 19th century in Zurich).

What dormakaba is known for in the trade/spec world is the "whole doorway" approach:

- **Door hardware + control** (closers, floor springs, related hardware)
- **Entrance systems** (automatic doors, turnstiles/personnel gates depending on market)
- **Access control & identity** (credentials, electronic locking, and management layers)

Scale-wise, dormakaba reported **net sales of CHF 2.87bn** for **FY 2024/25** and **~15k employees** (15,346 cited), reflecting a genuinely large global footprint.
