Specification Summary

Brand	Kenrick
Product type	Brackets

Product Description

The Kenrick 673 Handrail Bracket is a robust and reliable solution designed to securely mount timber handrails to walls. Manufactured from steel, this bracket provides the strength and durability required to support handrails safely in domestic or commercial environments.

It features a clean, white powder-coated finish that offers excellent resistance to wear while blending seamlessly with modern interiors. This bracket is designed for use with No. 8 size screws, ensuring a firm and stable installation. With a length of 64mm, it provides a sturdy projection to keep handrails safely positioned.

Please note that fixing screws are not included.
