Specification Summary

Brand	Eff Eff
Product type	Eff Eff

Product Description

The Eff Eff 17 Series UPVC Mortice Release is a high-security, easy-to-use electric door strike specifically designed for UPVC door applications. This robust release is continuously rated and operates on a fail-locked configuration, ensuring the door remains secure and locked in the event of a power failure.

Featuring an adjustable jaw for precise alignment and a durable stainless steel faceplate, this mortice release offers a substantial holding force of 675kg (1500lbs). It operates on a 12V AC/DC input voltage with a current consumption of 0.5A.

This product is available in multiple options, including Left Hand and Right Hand configurations, with corresponding manufacturer references (17/6L or 17/6R) and barcodes. Please choose your required handing and specification from the options below to ensure the correct fit for your door.

Technical Specifications

- **Brand:** Eff Eff
- **Application:** UPVC doors
- **Operation:** Fail Locked
- **Input Voltage:** 12V AC/DC
- **Current Consumption:** 0.5A
- **Holding Force:** 675kg / 1500lbs
- **Faceplate Dimensions:** 226mm (H) x 26mm (W)
- **Body Dimensions:** 75mm (H) x 28mm (D)
- **Jaw Dimensions:** 43mm (H) x 15mm (W) x 6mm (D)
- **Adjustable Jaw:** Yes
- **Finish:** Stainless Steel
- **Monitored:** No
- **Weather Resistant:** No
- **Guarantee:** 1 Year

Key Features

- **UPVC Specific Design:** Purpose-built for seamless integration with UPVC door applications.
- **Fail-Locked Security:** Remains securely locked in the event of a power failure to maintain premises security.
- **Continuously Rated:** Designed for continuous duty cycle operation.
- **Adjustable Jaw:** Features an adjustable jaw to allow for precise alignment during installation.
- **High Holding Force:** Offers a robust holding force of up to 675kg (1500lbs) for enhanced security.
- **Handing Options:** Available in both Left Hand and Right Hand versions (please select from the options below).

Brand Profile

Eff Eff

effeff (often written **EFF EFF**) is a German electromechanical door-hardware brand best known for basically inventing the modern **electric strike**—the little powered latch mechanism that lets a door be released by a button, intercom, or access-control system without replacing the mechanical lock.

- **Origins:** effeff began in **1936** as a precision/electrical engineering workshop in Germany (founded by **Fritz Fuss**).
- **Big invention:** ASSA ABLOY's own materials state that **electric strikes were invented and patented by effeff in 1947**, which is why "effeff strike" is almost a generic term in some trade conversations.
- **What they make:** a full electromechanical range including **electric strikes**, **electric bolts/dropbolts**, security locks and related **escape route / egress** components—designed to bridge mechanical locking with access-control systems.

Ownership / group: effeff is part of **ASSA ABLOY** (ASSA ABLOY announced the acquisition of German effeff Fritz Fuss KGaA in **1999**).

Signature product DNA (why installers like them):

- Wide strike selection for different door types and install situations ("appropriate strike for every installation location" is literally their pitch).
- Lots of practical installer features on popular models—e.g., adjustable keep designs and system-friendly variants like the **118E** family.
