Specification Summary

Brand	Energizer
Product type	Battery

Product Description

The Energizer LR44 / A76 1.5V lithium coin button cell battery twin pack is a reliable power solution designed for a wide range of everyday electronic devices. These compact cells are ideal for applications such as watches, pen lights, digital thermometers, and laser pointers.

Supplied in a convenient blister pack of two, these single-use batteries are engineered to perform reliably across a broad range of operating temperatures. They serve as a direct replacement for several common battery designations, including 157, 303, 357, AG13, EPX76, LR44, S76, SG13, and SR44. With Energizer's trusted reputation for quality and consistent power delivery, this twin pack ensures your small electronics remain powered and ready for use.

Technical Specifications

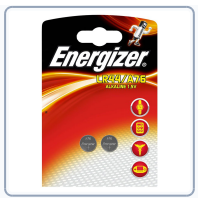

- **Brand:** Energizer
- **Model:** LR44 / A76
- **Voltage:** 1.5V
- **Capacity:** 150mAh

- **Output Current:** 150mA
- **Diameter:** 11.6mm
- **Pack Quantity:** 2
- **Weight:** 11g
- **Manufacturer Reference:** S3285
- **Part Number:** L27116
- **Barcode:** 7638900083071

Key Features

- **Broad Compatibility:** Replaces 157, 303, 357, AG13, EPX76, LR44, S76, SG13, and SR44 cells.
- **Multi-Purpose Use:** Suitable for watches, pen lights, digital thermometers, laser pointers, and other small electronic devices.
- **Temperature Resilient:** Functions reliably across a wide range of operating temperatures.
- **Blister Packed:** Securely packaged in a twin pack to maintain freshness and prevent accidental discharge.
- **Stable Power:** Delivers a consistent 1.5V output for single-use applications.
