Specification Summary

Brand	ERA
Product type	Patio Door Locks

Product Description

The ERA 100 Patio Door Lock is a versatile and reliable security solution designed to fit most types of wooden, aluminium, and uPVC sliding patio doors or windows. It helps prevent sliding doors from being lifted off their tracks, providing an effective layer of security for your home.

This push-button lock features a simple push-to-lock mechanism, allowing you to secure your patio doors instantly without needing a key. The key is only required to unlock the cylinder. For added security and a clean aesthetic, all fixing screws are completely concealed when the lock is in the locked position, and the hardened steel pin inside the bolt is designed to resist hacksawing.

The ERA 100 Patio Lock is available in a choice of finishes including Brown, Grey, and White, with options for either Display Box or Visi packaging. Depending on the selected variant, weights range from 130g to 153g. Please select your required finish, packaging, and manufacturer reference from the options below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
