Specification Summary

Brand	ERA
Product type	Non Deadlocking

Product Description

The ERA 135 Traditional Non-Deadlocking Nightlatch is a reliable and classic rim lock designed to replace most existing front door locks while providing added security to new and interior doors. Featuring a classic green case and a satin chrome cylinder, this nightlatch blends traditional aesthetics with dependable performance.

The lock is fully reversible, making it suitable for both left and right-handed inward-opening doors (outward-opening doors can also be accommodated with a separate staple). Operation is straightforward: the latchbolt is withdrawn by the key from the outside and by the internal handle from the inside. For added convenience and security, a simple snib button allows you to deadlock the latch or hold it back from the inside.

This nightlatch is available in multiple options, including boxed or visi packaging, weights of 550g or 580g, and manufacturer references 135 81 or 135-82. Please select your preferred configuration from the options below.

Technical Specifications

- **Brand:** ERA
- **Backset:** 60mm
- **Cylinder System:** ERA 5 Pin
- **Cylinder Finish:** Satin Chrome
- **Case Finish:** Green
- **Keying:** Keyed to Differ (3 keys included)

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
