Specification Summary

Brand	ERA
Product type	Non Deadlocking

Product Description

The ERA 1630 & 1650 Non-Deadlocking Nightlatches are highly versatile replacement front door locks designed with user-friendliness in mind. Featuring an easy-grip handle, these nightlatches are particularly well-suited for elderly users or anyone seeking a more accessible lock operation.

A standout feature of this range is the external cylinder, which provides the flexibility of either a deadlocking or non-deadlocking setup. To prevent accidental lockouts, the bolt hold-back snib is located directly on the lock body rather than the handle. Additionally, the modern lock body is designed with a larger footprint, allowing it to cover existing marks or screw holes from previous installations and reducing the need for door redecoration.

These nightlatches are supplied as a complete set, including a 5-pin rim cylinder, three keys, and all necessary fixings. They are available in a selection of case finishes, cylinder finishes, weights, and barcodes. Please choose your preferred options from the selection below.

Technical Specifications

- **Backset:** 60mm
- **Cylinder System:** ERA 5-pin rim cylinder

- **Keying:** Keyed to differ (master keying available as special order)
- **Case Finish:** Polished Brass or Satin Grey (please choose from the options below)

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
