Brand	ERA
Product type	Entrance

Product Description

The ERA 166 Entrance Knobset is a versatile and secure door locking solution designed for both front and back timber doors. Suitable for doors with a thickness between 35mm and 45mm, this knobset features a key-operated lock on the outside and a convenient thumb-turn on the inside, offering reliable security and easy operation.

Each set is supplied with an adjustable tubular latch that can be set to either a 60mm or 70mm backset, allowing it to fit most standard door preparations. It is easy to install and comes complete with two keys, necessary fixing screws, a strike plate, and full fitting instructions.

This knobset is available in multiple finishes, including Chrome Plated, Electro Brass, and Satin Chrome, with corresponding manufacturer references and barcodes. Please choose your preferred options from the selection below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
