Specification Summary

Brand	ERA
Product type	Dummy

Product Description

The ERA 172 Dummy Door Knob is a single, non-locking knob designed specifically for internal doors. This dummy knob is permanently fixed to the door face, providing a sturdy grip to pull doors open. It is ideal for use in conjunction with a tubular roller latch (not included) to keep doors closed when not in use.

Featuring a concealed fixing design, it ensures a clean, neat installation with no visible screws. This dummy knob is easy to install and comes boxed as a single unit.

This product is available in a variety of high-quality finishes, including Chrome Plated, Electro Brass, and Satin Chrome, with multiple manufacturer references and barcodes to suit your project. Please choose your preferred finish and specification from the options below.

Technical Specifications

- **Brand:** ERA
- **Knob Function:** Dummy (non-locking, single knob)
- **Knob Diameter:** 48mm
- **Rose Diameter:** 66mm
- **Knob Projection:** 71mm

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
