Specification Summary

Brand	ERA
Product type	5 Lever

Product Description

The ERA Viscount 5 Lever Sashlock (202 & 302 series) is a reliable contract mortice lock designed for timber doors. It is ideal for volume users, new build projects, or as a straightforward retrofit upgrade to replace existing 2 and 3-lever locks (such as the ERA Profit).

While it is a non-BS3621 lock, it offers robust security for internal doors, stores, or bedrooms where full insurance-rated certification is not required. It features false-notched levers to resist picking and four hardened steel rollers in the bolt to defend against hacksawing. The latch is easily reversible, making it suitable for both left and right-handed doors.

This versatile sashlock is available in multiple case depths, backsets, finishes, and packaging options. Please select your required specifications from the options below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
