Specification Summary

Brand	ERA
Product type	Cylinder - Oval

Product Description

The ERA 223 & 323 Oval Deadcase (also known as the Oval Viscount) offers exceptional versatility for your door security. Designed to accommodate most standard oval profile cylinders, this lockcase also comes complete with adapter 'shoulders' to fit Euro profile cylinders, giving you convenient dual-profile flexibility.

It is an ideal choice for replacing existing cylinder door locks with minimal disruption to your current door prep and fittings. For enhanced security, the deadlock features hardened steel rollers within the bolt to resist attack by hacksawing.

This deadcase is available in multiple configurations to suit your installation requirements. You can choose between a 44mm or 56mm backset (with corresponding 64mm or 76mm case depths) and select from Polished Brass or Satin Chrome finishes to match your door hardware. Please choose your preferred size, finish, and specification from the options below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
