Specification Summary

Brand	ERA
Product type	Cylinder - Euro

Product Description

The ERA 234 Fortress BS Euro Keyless Egress Key & Turn Sashlock is a high-security mortice lock designed to resolve the conflict between home security and fire safety. Certified to British Standard BS EN 8621, this lock provides keyless egress at all times, making it ideal for entrance doors in multi-residential buildings, flats, and other properties where quick, keyless escape is required in an emergency.

This sashlock comes complete with an ERA 6-pin Euro cylinder featuring an internal thumbturn. This setup allows occupants to easily unlock the door from the inside without a key, ensuring a swift exit in the event of a fire. For robust external security, the lock features hardened steel plates on the cylinder roses and four hardened steel rollers within the bolt to resist physical attacks.

Available in multiple finishes, case depths, and bolt throws, please select your preferred options from the drop-down menu below.

Technical Specifications

- **Backset:** 44mm
- **Case Depth:** 64mm or 67mm (please choose from the options below)
- **Case Height:** 109mm
- **Centres:** 48mm
- **Cylinder System:** ERA 6-Pin Euro Cylinder
- **Bolt Throw:** 20mm or 23mm (please choose from the options below)
- **Finish:** Chrome Plated, Polished Brass, or Satin Chrome (please choose from the options below)

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
