Specification Summary

Brand	ERA
Product type	Era

Product Description

The ERA 290 Series Digital Lock Without Holdback offers a reliable, keyless access control solution for both internal and external doors. Designed to eliminate the hassle of lost keys, this mechanical digital lock is ideal for a wide range of light-duty commercial and residential applications.

Operating via a simple, secure code of 4 to 6 digits, it features a thumbturn on the outside for entry upon correct code input, and a free-exit lever handle on the inside. The lock automatically deadlocks when the door is closed, ensuring continuous security. It is fully reversible, making it suitable for both left and right-handed doors.

This digital lock is available in Polished Brass or Satin Chrome finishes, with a weight range of 1.29kg to 1.3kg depending on the model. Please select your preferred finish and manufacturer reference from the options below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
