Specification Summary

Brand	ERA
Product type	Cylinder - Euro Lock Case

Product Description

The ERA 333 Fortress BS Euro Key & Turn Deadlock provides high-security protection with the added safety of keyless egress. Conforming to BS EN 8621, this British Standard mortice deadlock is designed for external doors where easy exit is required in an emergency without compromising on security. It is particularly suited for entrance doors in multi-residential properties and other buildings where fire safety regulations demand a quick, keyless escape.

The lock is supplied complete with an ERA 6-pin thumbturn cylinder, allowing you to lock or unlock the door with a key from the outside while retaining a simple thumbturn operation on the inside. For robust physical security, the deadlock features a 23mm bolt throw with four hardened steel rollers to resist hacksawing, alongside hardened steel plates on the cylinder roses to protect against drilling.

This product is Secured by Design approved and backed by a 10-year manufacturer's guarantee. It is available in multiple finishes, including Chrome Plated, Polished Brass, and Satin Chrome, with weights ranging from 1.14kg to 1.22kg, and is supplied with either 2 or 3 keys depending on the model. Please select your preferred finish, key quantity, and manufacturer reference from the options below.

Technical Specifications

- **Brand:** ERA
- **Standards:** BS EN 8621
- **Security Accreditation:** Secured by Design
- **Mechanism:** Euro Cylinder (ERA 6-pin)
- **Backset:** 56mm
- **Case Depth:** 76mm
- **Case Height:** 89mm

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
