Specification Summary

Brand	ERA
Product type	Accessory

Product Description

The ERA 427 25mm Deadlock Rebate Set in Satin Chrome is specifically engineered to enable the secure installation of ERA Fortress Deadlocks on rebated double timber doors and French doors. When double doors meet with an overlapping rebate, a standard flat strike plate cannot align correctly with the lock bolt. This rebate set solves the problem by providing a stepped strike plate and matching forend cover to accommodate the rebate, ensuring a flush, professional finish and secure closing.

This non-handed rebate set is suitable for both left and right-handed doors, offering excellent versatility during installation. It is designed for use with 25mm (1 inch) rebates, depending on the cross-section of your door. Supplied as a complete kit with matching screws, it provides a seamless aesthetic that matches your existing Satin Chrome door hardware.

Technical Specifications

- **Brand:** ERA
- **Manufacturer Reference:** 427-51
- **Rebate Size:** 25.4mm (1")
- **Finish:** Satin Chrome
- **Compatibility:** Designed for use with ERA Fortress Deadlock mechanisms
- **Handing:** Non-handed (suitable for left or right-handed doors)
- **Weight:** 250g

Key Features

- **Perfect for Double Doors:** Specifically designed for French doors and rebated double timber doors.
- **Secure Alignment:** Provides a stepped strike plate and forend cover to ensure the deadlock bolt aligns and throws securely into the overlapping door stile.
- **Non-Handed Design:** Reversible configuration makes it suitable for both left and right-handed door openings.
- **Professional Finish:** Sleek Satin Chrome finish seamlessly matches modern door hardware for a clean, integrated look.
- **Complete Kit:** Supplied with all necessary rebated components and matching fixing screws for a straightforward installation.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
