Is Cylinder

Product Description

The ERA 5-Pin Euro Half Cylinder is a reliable, standard-security locking solution designed for doors requiring key access from one side only. It is ideal for applications such as garages, communal doors, and utility rooms where external security is needed without the need for internal key or thumbturn operation.

This half cylinder is designed to suit all Euro-profile multi-point and mortice locks. It is a perfect choice for replacing existing door locks with minimal fuss and no need for major modifications to your door's current fittings.

This product is available in two high-quality finishes: **Polished Brass** and **Satin Chrome**. Please choose your preferred finish from the options below to match your existing door hardware. Each cylinder features a robust 5-pin mechanism and is supplied with 3 keys as standard.

Technical Specifications

- **Cylinder Profile:** Euro
- **Cylinder Type:** Half Euro
- **Overall Length:** 40mm (30/10)
- **Size to Centre of Cam:** 30mm
- **Mechanism:** 5-Pin
- **Keys Supplied:** 3

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
