Product type	Key & Turn Euro

TAGS

Is Cylinder

Product Description

The ERA 5-Pin Euro Key & Turn Cylinder is a reliable and versatile security solution designed to complement cylinder-operated mortice locks and multi-point locking systems. It provides controlled access from the outside using a key, while offering quick and easy keyless egress from the inside via a convenient thumbturn.

This cylinder is ideal for locations requiring controlled entry but easy, rapid exit, such as residential front doors or office spaces. Designed for straightforward installation, it is an excellent choice for replacing most existing Euro profile locks with minimal modification to your door or existing fittings.

This specific model features a 60mm overall body length (30mm on the key side and 30mm on the turn side) and is finished in a clean Satin Chrome. It comes complete with three cut keys, keyed to differ, and is boxed for secure transit.

Technical Specifications

- **Cylinder Profile:** Euro
- **Cylinder Type:** Key & Turn (Thumbturn)
- **Body Length:** 60mm (30/T30)
- **A Side (Key):** 30mm

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
