Specification Summary

Brand	ERA
Product type	Double Oval

Product Description

The ERA 5-Pin Oval Double Cylinder is a reliable and cost-effective security solution designed to suit all oval-type mortice locks and multi-point locking systems. Ideal for both residential and commercial properties, this double cylinder offers key-controlled access from both sides of the door, making it perfect for locations requiring controlled entry and exit.

Engineered by ERA, a trusted name in home security, this cylinder is designed for straightforward installation. It serves as an ideal replacement for most existing oval door locks, allowing you to upgrade or replace your security with minimal change to your existing door fittings.

This model features a durable 5-pin mechanism, a satin chrome finish, and an overall body length of 60mm (split 30/30). It is supplied complete with three keys as standard, ensuring you have plenty of spares right out of the box.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
