Specification Summary

Brand	ERA
Product type	Half Oval

Product Description

The ERA 5-Pin Oval Half Cylinder is a reliable and versatile single-sided locking solution, designed to suit standard oval profile mortice locks. This half cylinder is ideal for applications where key access is only required from one side, such as on garage doors, cupboards, or specific perimeter gates, providing security without the need for key access on the opposite side.

Crafted by ERA, a trusted name in home security, this 5-pin cylinder offers a straightforward upgrade or replacement for existing oval cylinders. It is designed for easy installation with minimal disruption to your existing door fittings. This cylinder is supplied in a high-quality satin chrome finish, ensuring it blends seamlessly with modern door hardware, and comes complete with three keys.

Technical Specifications

- **Cylinder Profile:** Oval
- **Cylinder Type:** Half (Single)
- **Overall Length:** 40mm
- **Cylinder Size:** 30/10 (30mm to centre of cam)
- **Mechanism:** 5-pin

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
