Is Cylinder

Product Description

The ERA 5-Pin Oval Key & Turn Cylinder is a reliable and convenient locking solution designed to suit standard oval-type mortice locks. Ideal for both residential and commercial applications, this key and turn (thumbturn) cylinder offers controlled, key-operated access from the outside while allowing quick, keyless egress from the inside. This makes it an excellent choice for locations requiring easy exit in an emergency without compromising external security.

Crafted by ERA, a trusted name in home security, this cylinder is designed for straightforward installation, making it perfect for replacing existing door locks with minimal changes to your current door fittings. It features a robust 5-pin mechanism and is supplied with three keys. This model comes in a clean, modern satin chrome finish, measuring

60mm in overall length (30/T30 split).

Technical Specifications

- **Cylinder Profile:** Oval
- **Cylinder Type:** Key & Turn (Thumbturn)
- **Overall Length:** 60mm (30mm / T30mm)

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
