Is Cylinder

Product Description

The ERA 6-Pin Euro Half Cylinder offers a reliable, high-quality locking solution for applications where access is only required from one side, such as garage doors, key switches, and specific patio doors. Designed to complement cylinder-operated mortice locks and multi-point locking systems, this half cylinder provides robust security with its 6-pin mechanism.

It is an ideal choice for replacing existing door locks with minimal fuss or alteration to your current door fittings. Each cylinder is supplied with three keys as standard, and we offer professional in-house key cutting and keyed-alike services if you require multiple locks to operate on the same key.

This cylinder is available in a range of overall lengths from 45mm to 55mm (with sizes including 35/10, 40/10, and 45/10) and is finished in either Satin Chrome or Polished Brass. Please select your required size, finish, and keying options from the dropdown menus below.

Technical Specifications

- **Cylinder Profile:** Euro
- **Cylinder Type:** Half Euro (single-sided)
- **Mechanism:** 6-Pin
- **Overall Length:** 45mm, 50mm, or 55mm (please choose from the options below)

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
