Is Cylinder

Product Description

The ERA 6-Pin Oval Key & Turn Cylinder is designed to complement cylinder-operated mortice locks and multi-point locks. This high-quality oval profile cylinder is ideal for locations requiring controlled key access from the outside and easy, keyless exit from the inside via an ergonomic thumbturn. It is a perfect choice for replacing existing door locks with minimal modification to your current door fittings.

Manufactured from solid brass, this cylinder features a reliable 6-pin mechanism that provides enhanced security. It is supplied with three cut keys as standard and is suitable for both domestic and commercial applications.

This cylinder is available in multiple overall lengths and finishes, including Polished Brass and Satin Chrome. Please select your preferred size, side measurements, and finish from the options below to find the perfect fit for your door.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
