Product Description

The ERA High Security Cylinder Escutcheon is designed to provide robust protection for euro profile cylinders against physical attack, while delivering a clean, professional finish to your door. Manufactured by ERA, a trusted name in home security, this heavy-duty escutcheon features a solid construction that helps safeguard your lock cylinder from tampering and forced entry.

It is supplied with concealed bolt-through fixings, ensuring there are no visible external screws for intruders to target, which significantly enhances the overall security of your door. With a 50mm diameter and 28mm screw centres, this escutcheon is both compact and highly effective.

This high-security escutcheon is available in a range of premium finishes, including Polished Brass, Polished Chrome, and Satin Chrome, allowing you to match your existing door furniture perfectly. Please select your preferred finish, manufacturer reference, and barcode from the options below.

Brand Profile

ERA

ERA (often seen as **ERA Home Security**) is one of the long-standing names in UK locking and hardware, rooted in the **West Midlands** and heavily tied to the **door & window** trade. ERA traces its origins to **1838**, when **John Reynolds** started a locksmith business in **Willenhall**—a town that's basically the spiritual capital of British lockmaking.

These days ERA positions itself as a "home security expert" that **designs, develops, manufactures, and distributes** a broad range of products for the residential building and home improvement market—spanning **cylinders and door hardware**, **window hardware**, **smart/security products**, and associated ironmongery ranges (including brands like **Crompton** under the ERA umbrella).

On the corporate side, ERA was historically part of **Tyman plc** (you'll see that referenced in older deal/industry material). More recently, ERA states directly that it is **now part of Quanex** (NYSE: NX) following Quanex's acquisition of Tyman.
