Is Cylinder

Product Description

The Eurospec MP10 Euro Thumb Turn Cylinder offers a high-security locking solution suitable for domestic, commercial, and industrial applications. Featuring a convenient key-and-turn design, it allows for secure key access from the outside and quick, keyless thumbturn operation from the inside, making it ideal for everyday convenience and emergency escape.

Engineered for robust protection, this cylinder features a 10-pin mechanism with built-in anti-drill, anti-pick, and anti-bump technology to resist common forced entry methods. It is Secured by Design approved - the UK police flagship initiative - and fully tested to BS EN 1303 standards. Additionally, it is FD30/FD60 fire door rated, providing peace of mind in both security and safety.

To maintain strict key control, the MP10 uses a restricted key profile, meaning duplicate keys can only be ordered with the supplied security card.

This cylinder is available in a variety of sizes and high-quality finishes, including Polished Brass, Polished Chrome, and Satin Chrome. Please select your required size and finish from the options below.

Technical Specifications

- **Cylinder Type:** Euro Profile Key & Turn (Thumbturn)
- **Pin System:** 10-pin mechanism
- **Security Standards:** Tested to BS EN 1303
- **Fire Rating:** FD30 and FD60 fire door rated
- **Security Accreditation:** Secured by Design approved
- **Finishes Available:** Polished Brass (PB), Polished Chrome (PC), and Satin Chrome (SC)
- **Key Protection:** Restricted keyway (supplied with security card)

Key Features

- **Convenient Operation:** Keyless thumbturn on the inside allows for easy locking and emergency exit without searching for a key.
- **Enhanced Security:** High-security 10-pin cylinder suitable for domestic, commercial, and industrial use.
- **Advanced Protection:** Built-in anti-drill, anti-pick, and anti-bump protection.
- **Restricted Key Profile:** Prevents unauthorised key duplication for improved key control.
- **Versatile Options:** Available in a wide range of sizes and finishes to suit your door requirements (please choose from the options below).
- **Peace of Mind:** Backed by a 5-year mechanical guarantee.

Brand Profile

Eurospec

Eurospec is the **commercial / project-grade architectural hardware** brand within **Carlisle Brass**, aimed at environments where **testing, compliance, and durability** matter more than vibes. In practice, Eurospec is the "spec it for schools/hospitals/offices and stop thinking about it" range: stainless steel levers, hinges, locks/latches, cylinders, panic/emergency exit hardware, and the rest of the door set ecosystem.

What Eurospec is known for is being **standards-led**. Product lines are commonly marketed with **CE marking**, **fire door suitability (e.g., FD30/FD60 where applicable)** and testing to relevant European standards like **BS EN 1935** for hinges (you'll see Grade 13/7 etc. in listings, with stated door weight ratings).

Range-wise, Eurospec is deliberately broad, covering:

- **Hinges** (including ball-bearing and fire-rated variants)
- **Locks, latches, deadlocks**
- **Door furniture** (lever handles on rose/backplate, pull handles)
- **Window hardware and other commercial ironmongery staples**
