Specification Summary

Brand	Eurospec
Product type	Double Oval
Keyway	Eurospec

Product Description

The Eurospec MP10 Oval Double Cylinder offers high-security protection for doors requiring a UK oval profile lock. Part of Eurospec's architectural quality range, this 10-pin restricted cylinder system is designed to provide exceptional resistance against common forced entry methods, making it ideal for domestic, commercial, and industrial applications.

Engineered for peace of mind, the MP10 cylinder features robust anti-drill, anti-pick, and anti-bump protection. It is certified to BS EN 1303 standards and is FD30/60 fire door rated, ensuring it meets strict safety and performance criteria. Additionally, it is approved by Secured by Design, the UK police flagship initiative for security products.

The restricted keyway design prevents unauthorized key duplication, as key blanks are only available through approved distributors. This cylinder is available in multiple lengths and finishes, including Polished Brass and Polished Chrome. Please select your preferred size and finish from the options below.

Technical Specifications

- **Cylinder Profile:** UK Oval
- **Cylinder Type:** Double cylinder (key operation from both sides)
- **Security Pins:** 10-pin restricted security system
- **Standards & Certifications:** BS EN 1303 certified, Secured by Design approved
- **Fire Rating:** FD30/60 fire door rated
- **Available Lengths:** 64mm (32/32), 70mm (35/35), and 80mm (40/40)
- **Available Finishes:** Polished Brass (PB) and Polished Chrome (PC)

Key Features

- **High-Security Protection:** Features advanced anti-drill, anti-pick, and anti-bump mechanisms to resist forced entry.
- **Police Approved:** Meets Secured by Design standards, the UK police preferred specification for security.
- **Fire Door Rated:** Tested and certified for use on FD30 and FD60 fire doors.

- **Restricted Keyway:** Enhanced key control with restricted key blanks, ensuring keys can only be copied by authorized distributors.
- **Versatile Application:** Suitable for residential, commercial, and industrial doors.
- **Multiple Options:** Available in a range of sizes and finishes to suit your door thickness and existing hardware - please choose from the options below.

Brand Profile

Eurospec

Eurospec is the **commercial / project-grade architectural hardware** brand within **Carlisle Brass**, aimed at environments where **testing, compliance, and durability** matter more than vibes. In practice, Eurospec is the "spec it for schools/hospitals/offices and stop thinking about it" range: stainless steel levers, hinges, locks/latches, cylinders, panic/emergency exit hardware, and the rest of the door set ecosystem.

What Eurospec is known for is being **standards-led**. Product lines are commonly marketed with **CE marking**, **fire door suitability (e.g., FD30/FD60 where applicable)** and testing to relevant European standards like **BS EN 1935** for hinges (you'll see Grade 13/7 etc. in listings, with stated door weight ratings).

Range-wise, Eurospec is deliberately broad, covering:

- **Hinges** (including ball-bearing and fire-rated variants)
- **Locks, latches, deadlocks**
- **Door furniture** (lever handles on rose/backplate, pull handles)
- **Window hardware and other commercial ironmongery staples**
