Product Description

The Eurospec MP10 Rim Cylinder is a high-security 10-pin cylinder designed to provide robust protection for domestic, commercial, and industrial doors. Ideal for use with rim nightlatches, this cylinder offers reliable resistance against common forced entry methods, featuring anti-drill, anti-pick, and anti-bump protection.

Certified to British and European standards (BS EN 1303) and fire door rated, the MP10 rim cylinder is built to withstand demanding environments. It is available in a choice of attractive finishes - including Polished Brass, Polished Chrome, and Satin Chrome - to match your existing door hardware. Please select your preferred finish from the options below.

For versatile security setups, this cylinder can be supplied keyed alike or integrated into a master key system, making it an excellent choice for both individual homes and larger commercial properties. It also comes backed by a 5-year mechanical guarantee for long-term peace of mind.
