Product Description

The EVVA A5 DZ Euro Double Cylinder is a standard euro profile double cylinder designed to provide a basic yet robust security solution. Part of the reliable EVVA A5 5-pin locking system, this cylinder is supplied complete with a connecting screw and is stocked Keyed Alike (KA) to pass key A67670. This makes it a perfect choice for installations where multiple doors need to be operated by the same key.

This cylinder features an unrestricted 'A' section key profile, allowing for straightforward key duplication without the need for specialized authorization cards. It is also fire-tested, offering 30-minute fire resistance up to 821°C, making it suitable for a variety of domestic and commercial applications.

This double cylinder is available in multiple finishes, including Polished Brass and Nickel Plated. Please choose your preferred finish from the options below to match your existing door hardware.

Technical Specifications

- **Cylinder Profile:** Euro
- **Cylinder Type:** Double Euro
- **System:** EVVA A5 (5-pin mechanism)
- **Overall Length:** 72mm (36mm / 36mm)
- **Keying:** Keyed Alike (KA) to pass key A67670
- **Keys Supplied:** 3 keys as standard
- **Fire Tested:** Grade 0 (30-minute resistance to 821°C)
- **Key Profile:** Unrestricted 'A' section

Key Features

- **Keyed Alike Convenience:** Stocked to pass key A67670, allowing multiple cylinders to be operated by a single key.
- **Robust Security:** Features a dependable 5-pin locking mechanism from the trusted EVVA A5 range.
- **Unrestricted Key Profile:** The 'A' section profile allows for easy and flexible key duplication.
- **Fire Rated:** Offers 30-minute fire resistance up to 821°C for enhanced safety.
- **Multiple Finishes:** Available in Polished Brass and Nickel Plated to seamlessly complement your door furniture.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
