Is Cylinder

Product Description

The EVVA A5 HZ Euro Half Cylinder is a robust and reliable 5-pin locking solution, designed for applications where key access is only required from one side, such as garage doors, key switches, and patio doors. This cylinder is supplied Keyed Alike (KA) to key suite A67670, allowing multiple locks to be operated by the same key for ultimate convenience.

Equipped with an adjustable cam, this half euro cylinder offers excellent versatility during installation. It comes supplied with three keys as standard, ensuring you have plenty of spares right out of the box.

This cylinder is available in multiple options, including Nickel Plated and Polished Brass finishes, as well as different barcode configurations. Please select your preferred finish and barcode from the options below.

Technical Specifications

- **Brand:** EVVA
- **Cylinder Profile:** Euro
- **Cylinder Type:** Half Euro
- **Cylinder System:** EVVA A5
- **Mechanism:** 5-Pin

- **Keying:** Keyed Alike (to suite A67670)
- **Overall Length:** 41mm
- **A Side (Internal):** 32mm
- **Cylinder Size with Cam:** 32/9
- **Keys Supplied:** 3
- **Fire Tested:** Grade 0
- **Weight:** 179g
- **Packaging:** Boxed

Key Features

- **Keyed Alike Convenience:** Supplied to pass key suite A67670, making it ideal for multi-lock installations.
- **Adjustable Cam:** Features a multi-position adjustable cam for flexible installation.
- **Robust 5-Pin Mechanism:** Reliable EVVA A5 system provides durable, everyday security.
- **Multiple Finishes:** Available in Polished Brass or Nickel Plated to suit your aesthetic preferences (please select below).
- **Generous Key Supply:** Includes 3 keys as standard with in-house key cutting support available.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
