Is Cylinder

Product Description

The EVVA A5 KDZ Euro Key & Turn Cylinder is a standard euro profile cylinder designed to offer a basic yet robust security solution. Built on the reliable EVVA A5 5-pin locking system, this cylinder is supplied complete with a connecting screw and is stocked Keyed Alike (KA) to pass key A67670, allowing multiple cylinders to be operated by the same key.

This cylinder features an unrestricted 'A' section key profile (with 'F' section available to special order) and is fire-tested to offer 30-minute fire resistance up to 821°C. It is available in multiple finishes, including Polished Brass and Nickel Plated. Please choose your preferred finish from the options below to match your door hardware.

Whether you are replacing an existing lock or installing a new one, the EVVA A5 KDZ provides dependable performance and convenient key-and-turn operation, allowing quick locking and unlocking from the inside without a key.

Technical Specifications

- **Cylinder Profile:** Euro profile
- **Cylinder Type:** Key & Turn (Thumbturn)
- **Cylinder System:** EVVA A5

- **Mechanism:** 5-pin
- **Overall Length:** 72mm (36mm / T36mm)
- **Cylinder Size with Cam:** 31mm / 10mm / T31mm
- **Fire Resistance:** 30 minutes to 821°C (Grade 0)
- **Keying:** Keyed Alike (KA) to pass key A67670
- **Keys Supplied:** 3 keys as standard
- **Finishes Available:** Polished Brass or Nickel Plated (please select from the options below)

Key Features

- **Keyed Alike Convenience:** Stocked to pass key A67670, allowing multiple locks to be operated with a single key.
- **Robust 5-Pin Security:** Utilises the reliable EVVA A5 mechanism for standard security applications.
- **Fire Tested:** Certified for 30-minute fire resistance up to 821°C.
- **Unrestricted Profile:** Supplied with an 'A' section key profile as standard.
- **Easy Operation:** Key entry from the outside with a convenient thumbturn on the inside for quick, keyless egress.
- **Complete Package:** Supplied with 3 keys and a connecting screw for straightforward installation.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
