Is Cylinder

Product Description

The EVVA A5 KDZ Keyed to Differ (KD) Euro Key & Turn Cylinder is a reliable, robust 5-pin locking solution designed to suit standard Euro profile doors. Combining a secure key-operated exterior with a convenient interior thumbturn, this cylinder offers both security and ease of use for everyday access.

Built on the dependable EVVA A5 system, this cylinder features an unrestricted 'A' section key profile (with 'F' section available to special order) and is supplied with three keys as standard. It is fire-tested to provide 30-minute fire resistance up to 821°C, making it suitable for a variety of domestic and commercial applications.

This cylinder is available in a wide selection of overall body lengths ranging from 54mm to 122mm, with various offset configurations (A Side and B Side measurements from 27mm to 61mm). It can also be selected in either a Nickel Plated or Polished Brass finish to match your existing door hardware. Please choose your preferred size, offset, and finish from the options below.

For bespoke requirements, a range of optional special features can be supplied to order, including clutch cams (anti-barricade), cog wheel cams, and sea water protection. Please contact us for more information on these custom options.

Technical Specifications

- **Cylinder Profile:** Euro
- **Locking Mechanism:** 5-pin
- **Keying:** Keyed to Differ (KD)
- **Body Length:** Available from 54mm to 122mm (please choose from the options below)
- **A Side (Key Side) Options:** 27mm, 31mm, 36mm, 41mm, 46mm, 51mm, 56mm, 61mm
- **B Side (Turn Side) Options:** 27mm, 31mm, 36mm, 41mm, 46mm, 51mm, 56mm, 61mm
- **Finishes:** Nickel Plated or Polished Brass (please choose from the options below)
- **Fire Resistance:** 30-minute fire resistance to 821°C (Grade 0)
- **Keys Supplied:** 3 keys as standard
- **Key Profile:** Unrestricted 'A' section ('F' section to special order)

Key Features

- **Convenient Key & Turn Operation:** Secure key entry from the outside with a quick-release thumbturn on the inside.
- **Robust 5-Pin Security:** Built on the reliable EVVA A5 system for dependable daily performance.
- **Versatile Sizing & Finishes:** Available in multiple lengths, offsets, and finishes to perfectly match your door and hardware.
- **Fire Rated:** Tested to provide 30 minutes of fire resistance up to 821°C.
- **Supplied Complete:** Comes ready for installation with a connecting screw and three keys.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
