Product Description

The EVVA A5 KDZ Key & Turn Euro Cylinder is a basic yet robust 5-pin locking system designed to offer reliable security and convenient keyless egress from the inside. This off-set cylinder is keyed to differ (KD) and comes supplied with three keys as standard. It features a 30-minute fire resistance rating (up to 821°C), making it suitable for a variety of domestic and commercial applications.

This cylinder is available in a wide range of overall body lengths from 67mm up to 112mm, with offset A-side and B-side (thumbturn) measurements ranging from 31mm to 71mm. It is also offered in two high-quality finishes: Nickel Plated and Polished Brass. Please select your required size and finish from the options below to find the perfect fit for your door.

Brand Profile

Evva

EVVA is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
