## Product Description

The EVVA A5 ODZ Keyed to Differ (KD) Double Oval Cylinder is a robust and reliable 5-pin locking solution designed to suit standard UK oval profile locks. Supplied complete with a connecting screw, this double cylinder can be operated with a key from either side, making it ideal for a wide range of residential and commercial applications.

The EVVA A5 system features an unrestricted key profile with an 'A' section (with 'F' section available to special order), offering a highly dependable and straightforward locking mechanism. It also boasts a 30-minute fire resistance rating up to 821°C, providing peace of mind in the event of an emergency.

This cylinder is available in multiple overall lengths, including 62mm, 72mm, and 82mm, with corresponding side measurements (A/B) ranging from 31mm to 41mm. It is also offered in two high-quality finishes: Nickel Plated and Polished Brass. Please select your required size and finish from the options below.

A variety of optional special features can be ordered for this cylinder, including external key override (BSZ), cog wheel cams (Z), and sea water protection (SEW). Please contact us for more information on custom configurations.

## Technical Specifications

- **Cylinder Profile:** Oval
- **Cylinder Type:** Double Oval
- **Cylinder System:** EVVA A5
- **Mechanism:** 5-pin
- **Keying:** Keyed to Differ (KD)
- **Keys Supplied:** 3 keys as standard
- **Fire Resistance:** 30 minutes to 821°C
- **Overall Length:** 62mm, 72mm, or 82mm (please choose from the options below)
- **Side A / Side B Sizes:** 31mm, 36mm, or 41mm (please choose from the options below)
- **Finish:** Nickel Plated or Polished Brass (please choose from the options below)

## Key Features

- **Robust 5-Pin Mechanism:** Features a dependable 5-pin locking system with an unrestricted key profile.
- **Double-Sided Key Operation:** Allows convenient locking and unlocking with a key from either side of the door.
- **Fire Tested:** Offers 30-minute fire resistance up to 821°C for enhanced safety.
- **Complete Kit:** Supplied complete with a connecting screw for straightforward installation.
- **Customisable Options:** Compatible with a wide range of optional special features upon request, including external key override and sea water protection.

## Brand Profile

Evva

**EVVA** is an Austrian, **family-owned** security manufacturer based in **Vienna**, specialising in high-end **mechanical and electronic locking systems** for everything from homes to large, complex master-keyed organisations. The company was **founded in Vienna in 1919**, and it still runs **research, development, and production** from its Vienna headquarters, exporting globally.

In the trade/spec world, EVVA's reputation is built on **serious key control** and **master key system engineering**—locks designed not just to resist attack, but to keep access hierarchies manageable at scale (offices, hospitals, residential complexes, universities, etc.).

A couple of EVVA's standout mechanical platforms get referenced constantly:

- **ICS (Inner Code System)** – a reversible key system aimed at **highly complex master key structures**, with EVVA citing long patent protection (into the 2030s, depending on jurisdiction).
- **MCS (Magnetic Code System)** – EVVA positions this as a top-tier system for sophisticated master keying, with a strong anti-copying story (including resistance to modern replication methods).

They also explicitly brand themselves around innovation: EVVA talks about holding **200+ patents** and frames its history as "start-up energy since 1919" (which is an absolutely deranged sentence for a century-old lock company, but I respect the audacity).
